Medfield, MASS – November 1, 2006 – HR Alliance Group, Inc. announces the launch of its Talent Acquisition & Recruitment Practice with the formation of a Joint Venture with Rubin & Associates, Inc. As Practice Director of HR Alliance Group’s Talent Acquisition & Recruitment Practice, Fran Rubin collaborates with the Firm to provide strategic talent acquisition consulting and retained executive search services. Ms. Rubin has over 20 years of experience developing and implementing innovative recruitment strategies and conducting executive search for global clients. She holds a B.A. from Queens College in New York, and has completed extensive graduate work in Human Resources Management.

HR Alliance Group’s Talent Acquisition & Recruitment Practice focuses on helping clients to develop best-in-class talent acquisition and recruitment initiatives that are not only aligned to a client’s business, but that serve as critical strategic enablers helping to drive overall corporate objectives. In addition, HR Alliance Group provides high quality, customized executive search services for clients in all industries. The Firm’s executive search services primarily focus on “C-level” executives who are responsible for leading all aspects of business operations.

Beth Kelly, President of HR Alliance Group said “our Firm is differentiated in the market by the mere fact that we provide world-class talent acquisition consulting services combined with the highest quality of retained executive search. This allows our clients to benefit significantly from the deep domain knowledge and expertise of our consultants”.

Fran Rubin commented “organizations must consider recruitment as a strategic war for talent, and must develop and implement aggressive talent acquisition strategies in order to dominate the labor market within a given industry. With the impending retirement of the baby-boomer generation and the lack of availability of high quality senior-level talent, many companies consider talent acquisition to be the most important business challenge facing them today”.
